E-Graphs: Bootstrapping Planning with Experience Graphs, Phillips et al., 2012

1. What representation does the paper use for modeling?
2. What are experience graphs?
3. How do the authors realize they are learning?

Apprenticeship Learning via Inverse Reinforcement Learning, Abbeel & Ng, 2004

1. What are the authors trying to achieve?
2. Which assumptions do they make in order to derive the reward function?
3. What are the feature expectations?
4. How does Inverse Reinforcement Learning work, at a high level?
